

NEW & INNOVATIVE
A Fabric Neat-Nicks Will Love

Including the power to withstand industrial strength sweat, coffee, tea, soda, vending machine snacks, oil and the occasional greasy burger or chili dog.

Concept Seating's 24/7 Intensive Use Chairs are built for relentless use and abuse.

Above and beyond the call of duty.

CHAIRGUARD 24/7 fabric is on our chairs because it's every bit as revolutionary as the structural engineering in our chairs. This breakthrough innovation provides an impenetrable barrier against stains and spills. Liquids bead up and can be wiped off with a damp cloth. CHAIRGUARD 24/7 fabric protection offers superior liquid and stain repellency while providing maximum comfort in a breathable and durable fabric. CHAIRGUARD 24/7 enhanced fabrics allow water and oil spills to easily bead and roll off the fabric without penetrating the fibers. Because the chemistry is on a nano-scale, the hand is not altered and the fabric remains soft and breathable.

Ask your dealer for a demonstration of our exclusive technology.

Clean up is quick, making your decision to specify Concept Seating Chairs even quicker!

ARMREST & PAD OPTIONS

Begin by selecting a swing arm or stationary arm both adjustable with 7 height positions and 2 inches of width adjustment. Further enhance your comfort and function by selecting from our "Tuf Pad" and "C" Ram Loop pad options. "C" Ram Loop pad option not available on swing arm.

Tuf Pad (shown with Ergo Swing arm)

"C" Ramp Loop Pad

THE SCIENCE OF SYNCHRONICITY

Advanced engineering in these elite models dials in a user's preference even further:

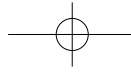

2:1 BACK TO SEAT RECLINE RATIO

positions hips properly; user slides back gently instead of "falling" against backrest

5-POSITION BACKREST HEIGHT ADJUSTMENT

supports spine and shoulders perfectly

OUR PRODUCTS STAND THE TEST OF TIME

The GSA has set the standard for ergonomic intensive use chairs. In most categories of measurement, performance requirements are 10X that of ordinary office furnishings. Concept Seating's 24/7 Intensive Use Chairs exceed even the GSA elevated requirements!

In other words, our Ergonomic designs deliver quantifiable economic benefits in terms of long life, multi-user versatility, reduced musculo-skeletal strain, and advanced comfort features.

That's why every chair includes a six-year written warranty.

TYPE OF TEST	GSA MINIMUM REQUIREMENTS FOR TEST FNEW83-269E	ANSI/BIFMA ACCEPTANCE
Cyclic back and back tilt mechanism fatigue test	1,000,000 cycles minimum	120,000 cycles
Cyclic Vertical Load test on 1 arm	100lbs through 250lbs. in 50lbs increments 25,000 cycles at each load level	200lbs 1 time function load 300lbs 1 time proof load 2,500lbs 1 time proof load (base only)
Cyclic Vertical Load test on seats, bases and casters	200lbs. through 13,000lbs in 50lbs increments 25,000 cycles at each load level	3000lbs 6" one crop 2,500lbs one load (base only)
Cyclic side thrust Load test on arms	50lbs through 200lbs increments 25,000 cycles at each load level	100lbs 1 time function load 150lbs 1 time proof load
Cyclic pneumatic seat height adjustment test	250lbs cyclic seat load cycle pneumatic unit 125,000 full cycles	No comparable test requirements
Chair - caster base durability test	36,000 cycles 5lbs retention after cycling	36,000 cycles 5lbs retention minimums after cycling

RELAX, YOU CAN DEPEND ON IT

ERGONOMIC IS A BUZZ WORD

This is the last word.

From automobiles, to computer keyboards, to power tools, many manufacturers claim increased functionality through ergonomic design. Sad to say, some of these "improvements" relate purely to superficial stylistic changes with negligible operational impact. Unfortunately, the same is true in our industry. Don't be fooled by these great pretenders.

Concept Seating products aren't built by slipping part A into slot B. We engineer them from the ground up for non-stop torture in high-intensity workplaces where no two body types are the same. Our track record stretches over 10 years, backed by detailed, documented proof of performance that we're only too happy to share!

Meets ANSI/BFMA and is certified for 24/7 installations under GSA FNEW 83-269E

Used by Police, Fire Departments, EMS and 911 Centers nationwide. Accommodates VWeight Loads To 550 lb.

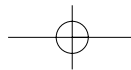

Seven-Legged Spider Base For Optimal Stability, Seven Height Position Arm Rests, Six Year, 24/7 Written Warranty

Replaceable Covers

Dymetrol Suspension

Buoyant stretch "floating-on-air" suspension cushions torso with optimal tension, prevents spine compression; bounces back almost instantly when weight is lifted; no springs to squeak, rust, break or flatten.

All Steel Frame

Seven-gauge steel maintains original tensile strength and rigidity over years of heavy-duty use; enforces perfect posture.

Adjustable Armrests

No tools required to adjust or replace. You can choose style, width and height for customized comfort, security and support.

Replaceable Covers

Fabrics can wear but our frames are virtually indestructible. Bring back that "brand new" look in minutes even after years on the job.

Heavy-Duty Dual Wheel Casters

We specify the toughest materials for these load-bearing stress points and conduct exhaustive component testing prior to chair assembly. Anti-static casters are an available option.

Show Your Colors

Logos or artwork can be embroidered into chair back or headrest.

Infinitely Adjustable Air Lumbar A

Pump it up to cushion back and maintain proper spine alignment while writing, computing, meeting, phoning and monitoring

Waterfall Front B

Natural curvature of frame, combined with Dymetrol Suspension, prevents compression of leg nerves and promotes optimal circulation in every sitting position

Knee Tilt Control C

Forward pivot point for knee action eliminates any vertical knee strain while tilting, allowing freedom of movement.

Seven Leg Base

Tested to 10,000 lb.; added stability locks in center of gravity and eliminates tipping

Counter Height Options

Addition of an extended cylinder and foot rest ring option allows for quick elevation to any counter height. (Available on models 3144 & 3146)

WHAT A CONCEPT!

WE'VE GOT YOU COVERED

Several cover grades in a variety of colors let you specify a chair that stands up to anything a hard day can dish out.

Essential Collection

100% polyester; 1 million double rub fabric; featuring our exclusive CHAIR-GUARD 24/7 stain fighting technology.

Prestige Collection

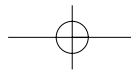

These fabrics were carefully selected for their rich color, pattern, and texture, combining Concept Seating performance standards with Innovative textiles.

100% Nylon or Olefin based on selection: featuring a 6 year warranty for color fastness and durability.

Leather Collection

Automobile-grade leather wears like iron and offers natural barriers to food and drink, sweat and body odor.

see dealer or website for new exciting color selections

THE PERFECT TASK CHAIR

FOR TODAY'S MULTI-TASK ENVIRONMENT

Reflex
Model # 3148

Where work spaces are tight and budgets tighter, REFLEX fits in perfectly. It's our response to the demands of hospitals, call centers, nursing homes, large companies, professional offices and educational institutions who want to equip an entire facility with Concept Seating 24/7 technology. Of course, if you only need one, we'll sell you one...in your choice of any of our colors.

- All the muscle in a smaller, more responsive frame
- Wide-ranging height adjustability
- Waterfall front keeps circulation flowing
- Stable, seven-legged spider base
- Exclusive CHAIRGAURD 24/7 anti-microbial, stain-fighting fabric
- Do-it-yourself replaceable covers, casters, armrests
- Full lumbar support options
- Four year warranty.

CONCEPT SEATING FACTS & STATS

FIRST RESPONDERS WERE OUR FIRST CUSTOMERS

Police and Fire Departments around the country were our first market and remain our most committed customers today. Now you know what they know. Now your organization can buy their exact model, tested-in-the-trenches, high-performance chairs!

It's a 24-hour, seven-day-a-week world! Concept Seating's Intensive Use chairs pay for themselves in elevated productivity. Sophisticated design enhancements minimize stress and muscle pain. Advanced safety features reduce on-the-job injury, time off work and expensive worker's compensation claims. Multiply that return by three, eight hour shifts, 52 weeks a year, over years of longevity and reliability, and your bottom line gets a boost in more ways than one!
